RE: FIXED FEES FOR NEW STREET NAME SIGNS

As you are aware, the City of Lincoln, Public Works & Utility Department requires payment for the fabrication and installation of new street name signs for each new subdivision established. The current rate of \$115 per sign assembly was established several years ago and thus, falls short of covering the actual costs incurred by the City. Therefore, in an attempt to more accurately cover the actual cost which the City incurs for the fabrication and installation of these street name signs, the Mayor has approved an increase to \$175.00 per sign assembly. This new rate will become effective January 1, 2006.

Another change with regards to Street Names in new sub-divisions is that the City will be modifying Title 26 of the Lincoln Municipal Code to allow the City to collect the fees for new street names up front rather than after they have been installed. The intent of this change is to reduce administrative time attempting to track which street names have been paid for and which ones have not. The time line for making this change has not yet been established.

If you should have any questions or concerns, you may contact me at 441-7711.

Sincerely,

Roger A. Figard
City Engineer
